

## **AIDSO On the incident of JNU Incidents**

**13<sup>th</sup> February, 2016**

“Recently on 9<sup>th</sup>February, 2016, a function was organized at JNU, Delhi, by some fringe groups and some slogans were reportedly raised there which go against the country. We strongly condemn this act and our organization AIDSO was in no way associated with this or any such functions anywhere; rather AIDSO upholds the struggle of the uncompromising trend of freedom movement of our country. But the rightist forces taking plea of those objectionable slogans have unleashed a hate campaign against all the left student organizations and the police at the behest of those forces and BJP government has started witch-hunting in the student hostels. We strongly protest against this.”
